

Inquiry: Developing a National Aviation Strategy

Wednesday 12th October 2022

Terms of Reference

The APPG is inviting views on the policies, issues, and ideas that should be included in a national aviation strategy that delivers for local communities, the environment and industry.

Members would like to hear about the range of policy priorities from aviation stakeholders including local communities, environmental campaigners, trades unions and industry leaders

Key Questions

1. Do you agree that the Government should develop a National Aviation Strategy?
2. What are the key elements that should be included in a National Aviation Strategy?
3. Where should any potential growth in aviation capacity be focused?
4. How best can the environmental impacts of aviation be reduced?
5. Should there be operational limits on airports seeking to expand to ensure that new technology is delivered?
6. What level of investment is required to deliver net zero aviation?
7. What is the gold standard for compensation and mitigation for local communities impacted by airport operations?
8. What assessments are available for the future of the hub airport model compared to direct point-to-point flights?

How to submit evidence

Please send written submissions of no more than 2,000 words to contact@airportcommunities.com by **Wednesday 7th December 2022**.

The APPG will publish submissions online at www.airportcommunities.co.uk

The APPG will consider hosting oral evidence sessions in early 2023 on specific issues that members wish to explore in more depth.
